P.
          School library modernization

The aim of this proposal is to suggest a way to enhance local
school library facility, give practical information
about its realization and outline the advantages of introduced services.

          Suggested changes
After being expanded library would be equipped with modern
technology devices such as laptops, computers and tablets
for free use. This will allow students to use internet and
electronic gadgets for educational purposes. Furthermore,
with addition of of smart desks certain amount of
classes could be moved into facility.

          Realization methods
The project requires large amount of high-cost
equipment as well as precise budget and space planning.
To cover the cost of it, project can be founded by local
school charity organization. The equipment consists
of electronic devices such as laptops, computers and
tablets as well as smart desks. Some rooms in the
building need to be rearranged and renovated.

          Advantages of new services.
Modern technologies will make the process of finding and
processing information significantly easier and less
time-consuming, generally increasing students effectiveness.
What is more, skills gained from using electronic devices
will not only help young people further in their lives,
but also make teachers more qualified. With the help of
modern library information can be translated to students in different
ways and so the quality of education will increase.
Conclusion

All things considered, the advantages of modernization project
outweigh possible disadvantages and will be beneficial
both for students and the teachers.

ANSWER SHEET

11-02-1

School library modernization.

The aim of this proposal is to suggest a way to enhance local school library facility, give practical information about it's realization and outline the advantages of introduced services.

Suggested changes

After being expanded library would be equipped with modern technology devices such as laptops, computers and tablets for free use. This will allow students to use internet and electronic gadgets for educational purposes. Furthermore, with addition of of smart desks certain amount of classes could be moved into facility.

Realization methods

The project requires large amount of high-cost equipment as well as precise budget and space planning. To cover the cost of it, project can be founded by local school charity organization. The equipment consists of electronic devices such as laptops, computers and tablets as well as smart desks. Some rooms in the building need to be rearranged and renovated.

Advantages. of new services.

Modern technologies will make the process of finding and processing information significantly easier and less time-consuming, generally increasing students effectiveness. What is more, skills gained from using electronic devices will not only help young people further in their lives, but also make teachers more qualified. With the help of modern library information can be translated to students in different ways and so the quality of education will increase.

Conclusion

All things considered, the advantages of modernization project outweigh possible disadvantages and will be beneficial both for students and the teachers.
