ANSWER SHEET

A proposal for the library

Due to the fact that school's library is about to be expanded, it needs some changes. I would like to suggest a new service to include in the library. This change may really improve the experience of visiting it.

The service

The new service the library can provide is quite simple yet efficient - a tiny shop with some drinks and food to buy.

Equipment and organizational arrangements

Equipment needed for realization of the project is a fridge, some bottles with drinks and some food. The only organizational arrangement is to make a librarian also a cashier.

Benefits

If you agree to realize this project, there will be some benefits not only for students, but also for school. Many students spend a huge amount of time studying in the library and because of that they may become hungry or thirsty. To cope with this problem they go to the nearest shop so it is a good idea to make their path easier and put the shop right inside of the library. The school will have an income of money which can be used ~~to make~~ to make other improvements. Moreover, this change may attract some students to use the library.

Conclusion

To sum up, this service is easy to realize and have some reasonable benefits and that is why you should accept it.
