ANSWER SHEET

Step into the World Wide Web

Introduction

This proposal is intended to suggest a way of modernising the library of our school. I strongly believe that recommendations included in the text will be highly beneficial for students and teachers and will impact the educational process. /40

Digitalising

Since we now live in the Internet era, it is clear that it opens a room for a more convenient usage of a library. Providing that a library website is created, students and teachers will have instant access to a list of books available at the moment. Moreover, it is undeniable that the traditional way of borrowing books can cause inconveniences or simply be time-consuming. That's why, the website is going to store electronic copies of books that are free to download for every student and worker of our school. ST

Implementation

The new library system will consist of three major parts: an updating data of available books, a comprehensive website and a QR-code system. The website, for which the Art and Programming Clubs will be responsible, will rely on a table named 'Supply of books' that is going to be monitored and edited by a library worker. A unique QR-code will instantly show the placement of the book. Then, a library worker marks a borrowed book in the table and hands it to an applicant. art

Conclusion

In conclusion, I would express my confidence that the new library system will not only accelerate the process of finding and borrowing books, but also will make knowledge more accessible for everyone. 274 words

Step into the World Wide Web

Introduction

This proposal is intended to suggest a way of modernising the library of our school. I strongly believe that ⁵⁰ recommendations included in the text will be highly beneficial for students and teachers and will ¹⁰ impact the educational process.

Digitalising

Since we now live in the Internet era, ⁶⁰ it is clear that ⁶⁰ it opens a room for a more convenient usage of a library. Providing that a library website is created, students and teachers will have instant access to a list of books available at the moment. ⁸⁰ Moreover, it is undeniable that the traditional way of borrowing books can cause ⁹⁰ inconveniences or simply be time consuming. That's why, the website is going to store ¹⁰⁰ electronic copies of books that are free to download for every student and worker of our school.

Implementation ¹³⁰

The new library system will consist of three major parts: an ¹⁴⁰ updating data of available books, a comprehensive website and a QR-code system. The website, for which the Art and Programming ¹⁵⁰ clubs will be responsible, will rely on a table named 'Supply of books' that is going to be monitored and edited by a library worker. A ¹⁶⁰ unique QR-code will instantly show the placement of the book. Then, a library worker marks a borrowed book in the table and hands it ¹⁷⁰ to an applicant.

Conclusion

In conclusion, I would express my confidence that the new library system will not only accelerate the process of finding and borrowing books, but also will make knowledge more accessible for everyone.
