ANSWER SHEET

11-18-1

To the planning committee.

I am writing to suggest a service that would improve our library at school. I think that our library is outdated and needs some changes.

My suggestion is to create a website for our library, that would help students and workers. This website would provide a list of books that are currently available. It would also give students an opportunity to order books that they need online and just come to library to take them. Their order. Moreover, instead of library cards students would have online accounts.

I don't think that this project would take too many time, money or equipment to make. School should hire a programmer to create a website and control it. We also should make a place where students would be able to take their online orders.

This service would be very beneficial for everyone in our school. Firstly, librarians wouldn't have to keep information about students on paper cards. All information would be on librarian's computer.

It would take much less time to look at someone's reading history. Secondly, students wouldn't have to stand in queues and wait for librarian to find books that they need, they would just order books online.

$$K_1 = 0 + 1 + 1 + 1 + 2 + 2 + 1 = 8$$

$$K_2 = 1 + 1 = 2$$

$$K_3 = 3 + 1 + 1 = 5$$

and take them whenever they have a free minute. Finally, <sup>1210</sup> it would make studying in our school much more comfortable, <sup>220</sup> and efficient.

All in all, this project would make our library much <sup>230</sup> better and improve ~~student's~~ students' ~~set~~ life.

SP. Yours faithfully,  
Olga
