ANSWER SHEET

Smart library expansion

Introduction

The aim of my proposal is to suggest the best way of our school's enhancement. I truly believe that it is more than possible to make the library both ~~convenient~~ and practically useful and entertaining for students.

Library transformation

103 It is essential for students to know that their school is a safe place where everyone might enjoy studying, having fun with friends and relaxing after classes. So the best thing is to give them the opportunity to do it by creating a special place in the library where it is possible to rest during ~~the~~ breaks and after lessons.

Necessary equipment

104 Obviously, some equipment is needed. For instance, a couple of sofas or beds, one computer with the ~~the~~ Internet connection and some board games to play. The extra-room should be separated from the main part of the library.

Style

What are the benefits?

85 The main advantage of this project is that students would be able to spend more time with their school friends and finally realise that ~~that~~ ^{our} school is their second home where they can ^{enjoy} be themselves.

Conclusion

That was my proposal on how to use the extra-space in our library. I hope that my idea will be used in this great project.
