The New Library

Introduction

The aim of this proposal is to recommend what should be done in order to improve the library service and make it helpful for the students.

The New Service

First of all, the library should provide a new service, which contains librarians, provision of a bigger amount of the information resources. I would also recommend setting more comfortable seats and coaches in the library to make it more convenient for the students. The main goal of this project is to make the library helpful and comfortable.

Practical Information

I would like to share some practical information for the realization of this project. Librarians play a big role. Their task is to help students in searching specific information. The information resources presented in the library should contain many different topics in order to make every student interested. Such as fiction, school books on different subjects, etc. All the information should be organized to make using of the library as comfortable as possible.

Benefits

The project has many benefits for the school and the students. The students will be able to develop their intelligence while reading books in the library. And the school will notice a rise
