ANSWER SHEET

9-38-1

The school library project

The project of expanding the school library will make a difference to students' learning process. However, the project needs a lot of work and planning. So I am writing to suggest some ideas for the realization of the project.

New service

First of all, the library should be a bit more organized. There should be two or three librarians who will help the students with finding books. The library also needs to provide a wider range of books, including literature and science books. There also should be an opportunity to take books for a longer time - for a month, for instance. In my opinion, this is important because some students do not have enough time to read a book in two weeks.

There also should be a number of computers for students to work and study and there has to be a computer for the librarians to use. As far as I am concerned, it is always easier to find a necessary book using a computer system.

Equipment and organization

For the ^{library} new equipment, new shelves and for new books are needed. And there should be new places for the computers. For the realization of the project some building equipment is needed and, apart from that, I think that students' parents should be involved in the project to help financially.

The ideas I suggested will help with the library organization and it will make it easier for students to study and do homework. Involving parents will make the realization of the project faster.

In my opinion, expanding the school library is a good way to improve students' learning process. I hope my suggestions will help with the project.

The school library project

The project of expanding the school library will make a difference to students' learning process. However, the project needs a lot of work and planning. So I am writing to suggest some ideas for the realization of the project.

New service

First of all, the library⁵⁰ should be a bit more organized. There should be two or three librarians who will help the students with finding books. ~~The library also needs to provide a wider range of books, including literature and science books.~~ There also should be an opportunity to take books for a longer time - for a month, for instance. In my opinion, this is important because some students do not¹⁰⁰ have enough time to read a book in two weeks.

There also should be a number of computers for students to work and study and there has to be a computer for the librarians to use. As far as I am concerned, it is always easier to find a necessary¹⁵⁰ book using a computer system.

Equipment and organization

For the new^{library} equipment, new shelves and for new books are needed. And there should be new places for the computers. For the realization of the project some building equipment is needed and, apart from that, I think that students' parents should be involved²⁰⁰ in the project to help financially.

The ideas I suggested will help with the library organization and it will make it²⁵⁰ easier for students to study and do homework. Involving parents will make the realization of the project faster.

In my opinion, expanding the school library is a good way to improve students' learning process. I hope my suggestions will help with the project.
